

Single Point of Entry Demonstration Projects

Individuals residing in shaded counties should contact the Single Point of Entry (SPE) for assistance in planning for and accessing long term care services. The SPEs provide *Information and Assistance* in accessing a range of supports, services, and resources; provide *Options Counseling* to improve consumers' understanding of the long term care supports that are available, facilitate information about transitions between long term care settings; conduct *Functional Eligibility Determination*; coordinate *Medicaid Financial Eligibility Determination*; offer *Benefits Counseling* to help people learn about and apply for public and private benefits, provide support during emergencies or individual crisis; and facilitate *Person Centered Planning* with consumers.
